

ID	Problem	App / Website	Likes	Don't likes	Improvements	Age	Gender	Education / Occupation	Comments
1	Forgetting car keys	Tesla (If one have Tesla car)	Easily managed through mobile and no need to get the keys every time one goes out.	Using the application to its full extent and applications not available for all car brands	Make it quite simple to be used by everyone for people of all age group.	62	Male	Retail salesperson	Applications should be made by all the car companies in order to make this thing working.
2	Getting Photos to mobile devices without any need to carry cables or memory card	FUJIFILM (Japanese company for cameras and also has application).	That it's very easy to manage the photos via mobile phone which are clicked on camera	Not available for all brands of camera	Need to be available for the camera brand, also should be compatible with some older versions of camera.	57	Female	Customer service representatives	Not feasible for all the types/version of cameras.
3	Getting medication and treatment online efficiently	Doctor on Demand, Heal	Easily accessible to doctors for non-serious health issues	Has a long waiting list for appointment	Need to hire more doctors / make AI to deal with very basic health issues	24	Male	Student	Misuse of Data.
4	Getting in touch with proper person to help the old people	Not Available	People can find care taker easily and also according to their own choice.	----	Should develop an application where old aged people can easily find the care taker (just like how people find babysitter).	21	Female	Student	Should develop an application and make proper advertisement to reach a greater number of people (both the care takers and old aged people)
5	Getting automobile help on just one click	Auto I care, GoMechanic, Garage pro, etc.	Very helpful if automobile breakdowns at any moment	Not available at every location and application is not user friendly	Application should be user friendly for all age groups and use the location service to reach out customer effectively and efficiently	27	Male	Student	Should make automobile services available at every Gas stations.
6	Advertisements on streaming, websites, etc.	Brave browser	Publicly available, easy to access and almost every advertisement is blocked	Not very popular, should add ad blockers for search engines	Should make some good applications or browser which helps you block the unnecessary advertisements	42	Male	Office clerks	Need to pay subscription fee for ad blockers. Also, some websites don't provide services if someone is using ad blocker.
